This disclosure describes the features of the Adjustable Rate Mortgage (ARM) Loan Plan you are considering. Information on the other Loan Plans will be provided upon request.

How Your Interest Rate and Payment are Determined:

Your interest rate after the initial interest rate will be based on an index rate plus a margin of 2.5%. Your initial interest rate may reflect a discount. Please ask us about our current interest rate. The index used to determine your interest rate after the initial interest rate is equal to the average yield of the 6 month London Interbank Offering Rate (LIBOR) as published in the Wall Street Journal. The index for your loan will be that which is the most recent figure available as of the date 45 days before each change date occurs.

Your interest rate will equal the index rate plus our margin rounded up to the nearest 1/8 percent unless your interest rate "cap" limits the amount of the increase or decrease in the interest rate.

Your principal and interest payment will be based on the interest rate, loan balance and remaining loan term. Changes in the interest rate will result in an increase or decrease in your monthly payment.
